In presenting the Budget, the President made the following statement.—

"The Boards expenditure has to be broadly classified under two heads *viz.*, obligatory and optional. The expenditure in neither of these stands stationary for any two successive years. Under obligatory comes, as usual, the largest demand from the Public Works Department and the next in order from the Medical Department in its application for varied items. Under optional applications for grants and scholarships are growing in number in recent years with the growth in the numbers of public organisations. While the demands for expenditure are showing a tendency towards considerable increase nothing was done to augment the Board's income. On the other hand as a result of the introduction of the Village Panchayet Regulation the Board has been subjected to the performance of an orduous task of continuing to meet all their recurring charges, framed on the basis of their previous income from items some of which yielding decent sums, now stand beyond its purview. This fact has disastrously told upon the already limited and inelastic resources of the Board and contributes largely towards the helplessness of the Board to meet the growing demands for popular grants, however much they might serve the interests or the advancement of the public. The only inevitable course open to the Board under the present state of its finances is to cautiously limit its expenditure so as not to allow it go beyond its resources, discouraging as far as possible the idea of operating any more upon the slender reserves built up for years by strenuous efforts and economy.

The Budget to be framed under such circumstances must be deemed disappointing to the people and it could not be otherwise for reasons beyond its control. Effort has however been made in the Budget, though framed under such trying circumstances, to make adequate provision for such optional items as are absolutely necessary to the exclusion only of such items which could wait without either much inconvenience to the people or to the several Departments.

The finances of the District Board can by no means be taken to be satisfactory and for this the Board is not entirely to blame. The responsibility for this rests elsewhere. As has been stated above the present state has been the result of Government's action depriving the Board of their large annual income from Mohatarfa and Cattle Pounds.

To relieve them to the extent of their loss either by way of transferring certain items of recurring expenditure to State funds or by granting statutory annuities to the Board to the extent of their loss under these items is an imperative duty casting on the Government, if ever it is the intention of Government to see that the Board will not reach a stage at which it will be impossible for it even to run its ordinary administration. Besides there is much for the Government to increase the resources of the Local Board and extend its activities in other direction in order to enable them to carry out very necessary, urgent and

useful reforms in the local administration and the delay in recognising its just and legitimate claims will cause deep dissatisfaction among all lovers of real Local Self-Government in Mysore. It is earnestly hoped however that the Government would soon come to the rescue of the Board by rendering it large financial help to enable it to continue to discharge its normal functions at least."

In supporting the suggestions made by the President Messrs. C. Vasudeva Rao, T. Syed Khaja Peeran, B. Deva Gowda and S. Honnappayya observed that the Government should relieve the Board of maintaining certain important District Fund roads by transferring them to the State funds. Messrs. Abdul Azez and K. Mallu Gowda of Mudgere suggested the formation of a Committee to consider the question of transferring such important roads to the State funds. Messrs. K. T. Sathyanarayana Setty and T. Syed Khaja Peeran proposed that a separate Drinking water well fund be constituted and well works taken up on a systematic and defined programme. Mr. Honnappayya also proposed that the charge allowance of Sub-Assistant Surgeons now being debited to the District Boards hereafter be borne by the Government to enable the Board to establish additional dispensaries in important places with the savings effected.

1049
